DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of the invention of Group I (claims 1-10) in the paper filed on September 22, 2003 is acknowledged.

Claims 11-16 are withdrawn from further consideration pursuant to 37 CFR § 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

The Information Disclosure Statement

The prior art cited in the information disclosure statement filed on February 28, 2002 has been considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 4-10 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The lack of an antecedent for "the adjusted spectrum" in line 2 of claim 4 renders claim 4 and any claim dependent therefrom indefinite.

In claim 2, the expression "the specified color is a color spectrum" is not clear. Clarification is required.

Allowable Subject Matter

Claims 1 and 3 are allowed over the prior art of record.

Claims 2 and 4-10 would be allowable if rewritten to overcome the rejections under 35 U.S.C. § 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method of determining an adjusted color to be used for computing colorants for printing on a specified substrate comprising the step of estimating diffuse reflection from the outside surfaces of colorants when printed on the specified substrate, in combination with the rest of the limitations of the claim.
